AFFAIRS OF THE DISTRICT.

Chief Dutton's Report in the Case of Fireman Ball.

The Commissioners Revising the Police Regulations—Changes That Have Been Suggested—Minor Public Improvements Ordered.

Robert W. Dutton, Chief Engineer of the Fire Department, has forwarded to the Commissioners the trial record of C. T. Ball, a private of engine company No. 15. Ball was charged by his superior officers with using language toward the Assistant Foreman unbecoming a gentleman and a fireman and of being under the influence of liquor. At the trial he was found not guilty. In forwarding the papers, Chief Dutton says: "The alleged unbecoming language was an admitted declaration by Private Ball that he would not, in executing an order, run for the assistant foreman or the 'likes' of him. The trial officer found that Ball was not guilty, but the finding I cannot wholly approve, for while the man may not have been under the influence of liquor, he admitted using disrespectful language toward the assistant foreman, who was at this time in command of the company.

"Then, too, a bottle, 'with a small amount of liquor left in it,' was found by Senior Chief Bolt in Private Ball's pocket, his coat being found in the man's locker. Private Ball explained the presence of the bottle by saying that one Wall about two months ago brought it into the house filled with whiskey, and that Wall, after drinking all that was in the bottle, left it on the shelf over the wastebasket. Ball said he found the bottle there and placed it in his coat pocket, thinking no more of it until the evening of his arrest. Mr. Wall said he carried a bottle of whiskey over to the house about two months ago; that he drank all that was in it, and left the empty bottle on the shelf over the wastebasket. Ball, however, swears that the bottle found in Private Ball's pocket was the one he left in the company's quarters, a serious violation of the rules governing the department.

"In view of this fact, and in view of the further fact that he was disrespectful in this language to the officer in command of the company, and in view of the fact that he was disrespectful to the Assistant Foreman, another serious violation of the rules, I respectfully recommend that he be discharged from the department. The Assistant Foreman, however, has recommended that he be kept for a period of three months.

It is understood that the Commissioners will approve the recommendation of the Chief Engineer.

W. S. Richardson, a druggist, at 316 Four-and-a-half Street southwest, has addressed the Commissioners, especially commending the action of Captain Sorrell, the veteran fireman, of engine company No. 4. Mr. Richardson states that it was the prompt and fearless action of Fireman Sorrell that saved his life from a fire on the night of July 5, near his store. The Commissioners have referred the letter to the Fire Department.

C. E. Hunt, the Computing Engineer, has forwarded to the Commissioners a recommendation that new granite curbs be set on both sides of First Street north-west, from P to Q Streets, at an estimated cost of \$1,200, under the assessment system.

The Commissioners have taken under consideration the revision of the police regulations, preparatory to printing a new edition. The last edition of the regulations was published in July, 1898, and has been practically obsolete since that time. The revision committee, composed of the Commissioners, the Police Department, and the Police Association, has been working on the revision for several months, and has now completed the work. The new regulations will be published in the near future.

CUT HER WITH A KNIFE.

A Woman's Assault Sent to Jail for Six Months.
James W. Raley was sentenced to six months for assaulting Lillian Howell at Ninth and F Streets last night. The woman appeared in court with the front of her shirt waist cut open, and a knife wound inflicted by Raley, who was claimed, attacked her as she was returning home from Cabin John Bridge.

Raley pleaded not guilty to the charge of assault, but several persons who saw the trouble were placed on the stand and testified to having seen Raley strike the woman at the corner of Ninth and F Streets. Raley said the woman had threatened to do him injury on several occasions, and that she had said, if unable to do it herself, she would have him killed. Raley said he was not guilty of the charge, and that he was not guilty of the charge.

HOURS FOR BARBERS SHOPS.

An Agreement to Close at 7 P. M. Daily, Saturdays Excepted.

The barber unions of Washington have reached an agreement concerning the closing hours of unisex shops throughout the city. On and after July 15, all of the barber shops, with a few exceptions, will close at 7 o'clock every evening except Saturday, when it will close at the closing hour.

HIS RECORD AGAINST HIM.

A Colored Boy Fined for Jumping on Moving Cars.
Clarence Hill, a colored boy, was arraigned before Judge Kimball in the Police Court today, on charge of jumping on street cars while they were in motion. Hill said he had been arrested for setting fire to a coal wagon. Judge Kimball remembered the case and upon further investigation found that Hill had been sent to the Reformatory School. He was released from that institution by reason of his good behavior. The conductors of the Capital Traction Company's Georgetown route have been given nervous prostration by the conduct of this boy, it is said. He was fined \$2.

"Strong and hearty boy, is it, and no pain? That's good!"

The joy of a new arrival in the family is usually overcast by the shadow of the pain and discomfort the expectant mother must bear. If she knew of and used **"MOTHER'S FRIEND,"** this would be all dispelled. Tell your friends about it, as being a simple liniment, exclusively for external use, that relaxes the muscles so that pain and suffering are unknown.
